

Pursuant to 86 Ill. Adm. Code 130.310, prescription and non-prescription medicines, drugs, medical appliances, modifications to a motor vehicle for the purpose of rendering it usable by a disabled person, and insulin, urine testing utensils, syringes, and needles used by diabetics, for human use, are taxed at the lower rate of 1%. (This is a GIL.)

July 10, 2006

Dear Xxxxx:

This letter is in response to your letter dated December 16, 2005, in which you request information. The Department issues two types of letter rulings. Private Letter Rulings ("PLRs") are issued by the Department in response to specific taxpayer inquiries concerning the application of a tax statute or rule to a particular fact situation. A PLR is binding on the Department, but only as to the taxpayer who is the subject of the request for ruling and only to the extent the facts recited in the PLR are correct and complete. Persons seeking PLRs must comply with the procedures for PLRs found in the Department's regulations at 2 Ill. Adm. Code 1200.110. The purpose of a General Information Letter ("GIL") is to direct taxpayers to Department regulations or other sources of information regarding the topic about which they have inquired. A GIL is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120. You may access our website at www.ILTAX.com to review regulations, letter rulings and other types of information relevant to your inquiry.

The nature of your inquiry and the information you have provided require that we respond with a GIL. In your letter you have stated and made inquiry as follows:

Please provide a response to the following inquiry at your earliest convenience.

A company in the STATE manufactures a product, which meets the definition of a drug per [sic] in this state. The product manufactured is regulated by the Federal Drug Administration and is prescribed by licensed practitioners. The product in question is an ointment/drug treated gauze, which is applied to bed ridden patients in order to cure, mitigate, treat or prevent bed sores and related infections. The product manufactured is sold to nursing homes accordingly:

- Example 1. **As "product only"**. In this case, the product is ordered by the nursing home customer and it is shipped by common carrier. The amount charged is based upon product sold and received.
- Example 2. **As part of a medical professional service**. In this case, the manufacture [sic] provides a licensed nurse and product. As part of the service provided, the nurse instructs personnel at the nursing home how to use the product. The nursing home is billed a monthly charge based upon the number of patients per bed, per month. The rate charged is for medical professional services in which product may or may not be used. It is strictly based upon the nursing home occupancy of patients for a related month. The licensed nurse is

responsible for inventory and product replenishment, which is ordered and shipped from the STATE manufacturer.

- Example 3. **As part of a professional service.** In this case, the manufacture [sic] provides a company representative and product. As part of the service provided, the company representative instructs personnel at the nursing home how to use the product. The nursing home is billed a monthly charge based upon the number of patients per bed, per month. The rate charged is for professional services in which product may or may not be used. It is strictly based upon the nursing home occupancy of patients for a related month. The company representative is responsible for inventory and product replenishment, which is ordered and shipped from the STATE manufacturer.

My questions pertain to the taxability, if any, of the product sold or service provided.

1. Under each example referenced, if the prescription drug product is shipped from the STATE facility, is the transaction subject to Illinois sales tax? Would the answer be different if the manufacture [sic] also provided non-drug related product as part of the service provided?

Thank you for your time in responding to these questions.

DEPARTMENT'S RESPONSE

Determinations regarding the subject of nexus are normally very fact specific. The Department has found that the best manner to determine nexus is for a Department auditor to examine all relevant facts and information. The following guidelines, however, may be useful to you in determining whether your company would be considered a retailer subject to sales tax collection obligations.

Whether a retailer is subject to Illinois Retailers' Occupation Tax (sales tax) liability or is required to collect Illinois Use Tax from its Illinois customers depends upon whether that retailer has sufficient "nexus" with the State of Illinois so that the retailer will be subject to Illinois law. The following information outlines the principles of nexus.

An "Illinois Retailer" is one who either accepts purchase orders in the State of Illinois or maintains an inventory in Illinois and fills Illinois orders from that inventory. The Illinois Retailer is then liable for Retailers' Occupation Tax on gross receipts from sales and must collect the corresponding Use Tax incurred by the purchasers.

Another type of retailer is the retailer maintaining a place of business in Illinois. The definition of a "retailer maintaining a place of business in Illinois" is described in 86 Ill. Adm. Code 150.201(i), enclosed. This type of retailer is required to register with the State as an Illinois Use Tax collector. See 86 Ill. Adm. Code 150.801, enclosed. The retailer must collect and remit Use Tax to the State on behalf of the retailer's Illinois customers even though the retailer does not incur any Retailers' Occupation Tax liability.

The United States Supreme Court in *Quill Corp. v. North Dakota*, 112 S.Ct. 1904 (1992), set forth the current guidelines for determining what nexus requirements must be met before a person is properly subject to a state's tax law. The Supreme Court has set out a 2-prong test for nexus. The first prong is whether the Due Process Clause is satisfied. Due process will be satisfied if the person

or entity purposely avails itself or himself of the benefits of an economic market in a forum state. *Quill* at 1910.

The second prong of the Supreme Court's nexus test requires that, if due process requirements have been satisfied, the person or entity must have physical presence in the forum state to satisfy the Commerce Clause. A physical presence is not limited to an office or other physical building. Under Illinois law, it also includes the presence of any agent or representative of the seller. The representative need not be a sales representative. Any type of physical presence in the State of Illinois, including the vendor's delivery and installation of his product on a repetitive basis, will trigger Use Tax collection responsibilities. Please refer to *Brown's Furniture, Inc. v. Zehnder*, 171 Ill.2d 410 (1996).

The final type of retailer is the out-of-State retailer that does not have sufficient nexus with Illinois to be required to submit to Illinois tax laws. A retailer in this situation does not incur Retailers' Occupation Tax on sales into Illinois and is not required to collect Use Tax on behalf of its Illinois customers. However, the retailer's Illinois customers will still incur Use Tax on the purchase of the out-of-State goods and have a duty to self-assess their Use Tax liability and the customer must remit the amount directly to the State. The State rate of Use Tax rate is 6.25%.

There is no tax on services in Illinois. However, the Service Occupation Tax is imposed on sales of tangible personal property incident to sales of service. Servicemen may calculate their tax base in one of four ways: (1) separately stated selling price; (2) 50% of the entire bill; (3) Service Occupation Tax on the cost price if they are registered de minimis servicemen; or, (4) Use Tax on the cost price if the servicemen are de minimis and are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act.

Using the first method, servicemen may separately state the selling price of each item transferred as a result of sales of service. The tax is based on the separately stated selling price of the tangible personal property transferred. If servicemen do not wish to separately state the selling price of the tangible personal property transferred, those servicemen must use the second method where they will use 50% of the entire bill to their service customers as the tax base. Both of the above methods provide that in no event may the tax base be less than the cost price of the tangible personal property transferred. Under these methods, servicemen may provide their suppliers with Certificates of Resale when purchasing the tangible personal property to be transferred as a part of the sales of service. Upon selling their product, they are required to collect the corresponding Service Use Tax from their customers. See 86 Ill. Adm. Code 140.106.

The third way servicemen may account for their tax liability only applies to de minimis servicemen who have either chosen to be registered or are required to be registered because they incur Retailers' Occupation Tax liability with respect to a portion of their business. Servicemen may qualify as de minimis if they determine that their annual aggregate cost price of tangible personal property transferred incident to sales of service is less than 35% of their annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphic arts production). See 86 Ill. Adm. Code 140.101(f). This class of registered de minimis servicemen are authorized to pay Service Occupation Tax (which includes local taxes) based upon the cost price of tangible personal property transferred incident to sales of service. Servicemen that incur Service Occupation Tax collect the Service Use Tax from their customers. They remit the tax to the Department by filing returns and do not pay tax to suppliers. They provide suppliers with Certificates of Resale for the property transferred to service customers. See 86 Ill. Adm. Code 140.108.

The final method of determining tax liability may be used by de minimis servicemen not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act.

Servicemen may qualify as de minimis if they determine that their annual aggregate cost price of tangible personal property transferred incident to sales of service is less than 35% of their annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphic arts production). Such de minimis servicemen may pay Use Tax to their suppliers or may self assess and remit Use Tax to the Department when making purchases from unregistered out-of-State suppliers. Those servicemen are not authorized to collect "tax" from their service customers because they, not their customers, incur the tax liability. Those servicemen are also not liable for Service Occupation Tax. It should be noted that servicemen do not have the option of determining whether they are de minimis using a transaction-by-transaction basis. See 86 Ill. Adm. Code 140.109.

Pursuant to 86 Ill. Adm. Code 130.310, prescription and non-prescription medicines, drugs, medical appliances, modifications to a motor vehicle for the purpose of rendering it usable by a disabled person, and insulin, urine testing utensils, syringes, and needles used by diabetics, for human use, are taxed at the lower State rate of 1%.

Under the Act, a medicine or drug is any pill, powder, potion, salve, or other preparation *intended by the manufacturer for human use and which purports on the label* to have medicinal qualities. A written claim on the label that a product is intended to cure or treat disease, illness, injury or pain, or to mitigate the symptoms of such disease, illness, injury or pain constitutes a medicinal claim. See 86 Ill. Adm. Code 130.310(c). Sterile dressings, bandages and gauze qualify for the reduced rate.

If you require additional information, please visit our website at www.ILTAX.com or contact the Department's Taxpayer Information Division at (217) 782-3336. If you are not under audit and you wish to obtain a binding PLR regarding your factual situation, please submit a request conforming to the requirements of 2 Ill. Adm. Code 1200.110 (b).

Very truly yours,

Martha P. Mote
Associate Counsel
